- d) All Health & Safety matters or concerns should be addressed immediately and directly to the Canterbury Golf Official on duty. That person is responsible for taking any action required.
- e) All Players, Managers and Officials should be familiar with the NZ Golf "Suspension of Play" procedure documented in the NZ Golf Club Manual Section 5-9. This is summarised below:

### How suspensions of play and the resumption are indicated –

1. Normal Suspension of play – three consecutive short notes of a hand siren.
2. Immediate Suspension of play for a dangerous situation – one prolonged note of a hand siren.
3. Resumption of play – two short notes of a hand siren.

Rule 5.7b illustrates what players are permitted to do in each situation after the siren has sounded –

1. Normal Suspension of play
  - a. If the players in a match or group are between the play of two holes (ie. Walking to the next tee) they must not resume play until the resumption siren sounds.
  - b. If the players in a match or group have started the play of a hole, they may either discontinue play immediately or continue play of the hole, provided they do so without delay. Play must be discontinued after the hole has been completed.
2. Immediate Suspension of play for Dangerous Situation

Play must be discontinued immediately following a long blast on the siren. If a player fails to discontinue play immediately, he is disqualified.

**Lifting ball when play discontinued – Rule 5.7d**

When a player discontinues a hole (either normal suspension or immediate suspension) he should mark the position of his ball and lift it without penalty.

**Procedure when play resumed – Rule 5.7c & d**

Play must be resumed from where it is discontinued, even if it is a different day. If the marker has moved it must be estimated and the ball placed on the estimated spot.

**EXTREME WEATHER GUIDELINES**

**For temperatures 30°C and above, the host club may suspend or abandon play, in accordance with Rule 5.7b. Play should not be cancelled prior to teams arriving at the course and commencing play.**

**Temperatures should be verified by NZ Met Service or on-course information.**

**Interclub conditions of play require abandoned matches to be declared null and void as we cannot guarantee alternative dates and courses. However, every effort will be made to reschedule.**

**PLAYER AND HOST CLUB RESPONSIBILITIES**

Host clubs should monitor play and ensure that extra water and drinks are available around the course.

Players should take every possible precaution to manage their golf activities during hot weather. The following guidelines should be observed:

- Wear light coloured, loose fitting clothes, with high wicking (absorption) properties that provide for adequate ventilation.
- Wear head covering for shading – full cap/brimmed hat recommended. • Use cart-mounted umbrella for shade.
- Apply sunscreen with a minimum SPF (Sun Protection Factor) rating of 30+. Re-apply at approximately two-hour intervals.
- Frequently consume fluids to avoid dehydration. Don't wait until you are thirsty – it's too late then. Carbohydrate-based sports drinks also replace carbohydrates and electrolytes lost during prolonged activity.
